14 shooters showed up to brave the monsoon the weather-guesser's said was coming. While the morning started off overcast, the sun soon started peaking from behind the clouds. As Antelope Ann remarked - "This was the best weather any of us have shot in, anywhere, over the last several months!"

Those of you who miss "the good ol' days" may have enjoyed a few of the stages this month. Yes, we had some stages with up close and fast targets, but we also shot one of the rifle plate racks with pistols! That put a stop to a few clean matches.

Calhoun Kid stayed after the match and helped move targets around, some are farther out and spaced farther apart. We hope y'all enjoy the stages for April!

## Rules Review Safety & Handling Conventions – All Firearms

- All staged firearms must have their barrels pointed in a safe direction.
- All long guns initially staged on a horizontal surface shall be staged lying flat where at least the rear of the trigger guard is on the staging area.
- All handguns initially staged on a horizontal flat surface must be staged with the entire handgun on the staging surface.
- If a shooter trips and falls during the course of fire, provided no safety rules have been violated, the shooter will be allowed to regroup and continue the course of fire.
- Any unloaded firearm dropped during a stage will result in a Stage Disqualification penalty assessment. This does not apply to holstered revolvers that remain “in leather” in the event of an equipment failure (e.g., broken belt buckle) causing the gun belt or ammo belt to fall. Shooter may safely recover a fallen gun/ammo belt and continue finishing the stage without penalty or wait until finishing the stage for retrieval.
- Any loaded firearm dropped during a stage will result in a Match Disqualification penalty assessment.
- A shooter is forbidden from picking up a dropped firearm. The CRO/TO will recover the firearm, examine it, clear it (if necessary), return it to the shooter, and assess the appropriate penalty.
- This does not apply to holstered revolvers that remain “in leather” in the event of an equipment failure (e.g., broken belt buckle) causing the gun belt or ammo belt to fall. Shooter may safely recover a fallen gun/ammo belt and continue finishing the stage without penalty, or wait until finishing the stage for retrieval.
