Congratulations to May's top cowboy and cowgirl!

Slick McClade & Antelope Ann

MAY 11, 2019 MATCH RESULTS

We had 13 shooter's brave the weather this month.

Fortunately, the weather held off long enough to get all the stages in.

Congratulations to our top cowboy and cowgirl, Slick McClade and Antelope Ann.

Our next monthly match is scheduled for June 8, 2019.

Match Finish	Alias	Category	Final Time
1	Slick McClade	R	105.41
2	Jubal Early	R	132.32

JACKSON HOLE GAZETTE

Jackson Hole Buckle Series Presented by:

El Dorado, AR
Sales: (866)200-3013

The 2019 JHR Buckle Series presented by Teague Auto Group standings have tightened up a bit.

General Jubal Early has a slim 4 point lead over Calhoun Kid and 7 points over Beaver John in the Regulator Series.

Will E Fixit is still leading in the Men's Dixie Cup series but Wrangler Wade, Smokey Shane and Conejo Valley Kid are separated by only 5 points.

Inn the Lady's Dixie Cup series Antelope Ann has extended her lead to 8 points over Dixie Rebel.

If you're looking for a new or used Chevrolet, Ford, Lincoln or Toyota – give Teague a call!

Dixie Rebel	32 pts
Madam Butterfly	27 pts
Angie Get Your Guns	24 pts
Lacy Anne Leather	18 pts

JACKSON HOLE GAZETTE

Shooter is competing as a duelist. Rifle and shotgun staged on table, revolvers holstered.

Scenario is rifle, shotgun then revolvers.

Shooter completes rifle and shotgun sequence then draws first revolver. After shooting 4 rounds from the first revolver the shooter rests the muzzle on the table with the hammer down on the fired round and draws the second revolver, firing the 5 rounds in that revolver. Realizing there is one round left in the first revolver, the shooter fires that round, completing the sequence correctly.

WTC?

PROCEDURAL

Page 21 SHB

- First offense in the same match for "shooting out of category."

Page 6 SHB

o At no time shall the competitor have two **loaded** revolvers in hand at once.

The ROC clarification states specifically how to avoid the penalty when the revolvers are drawn from leather:

"...the shooter may holster one of the firearms to avoid the penalty, up until the point when either of the two revolvers is cocked. In other words, unless ONE of the revolvers is cocked, the shooter may simply holster one of the revolvers to avoid the penalty."

It would work the same way if the revolvers started staged on a prop/table...return one back to the prop (or holster) before cocking either one.

As soon as the 2nd revolver is cocked, the penalty applies, as the revolvers were not initially staged before use.

Once the first revolver "cleared the mouth of the holster", it is "in hand" (out of leather) until it has been REholstered.

Applicable definition:

Page 44 SHB

Revolver in hand – when the muzzle of the revolver clears the mouth of the holster, or breaks contact with a prop where it was staged.

Shooting order is rifle, pistol and then shotgun.

Shooter completes stage correctly. After engaging all required SG targets (stage is complete), shooter sets down their SxS shotgun at position 3 and returns to position 2 to retrieve their rifle prior to moving to the unloading table.

The shotgun had an empty hull in one chamber.

WTC?

NO CALL

Page 16 & 17 SHB

- Long guns will be emptied and discarded with their barrels pointed safely downrange. This condition may be corrected on the clock, prior to the next round being fired. If the long gun is not discarded empty prior to the next firearm being fired, only the shooter may return to open and/or clear the firearm at the end of the stage under the observation of the CRO/TO. Should an empty casing/hull be ejected or found in the action or chamber, or a live round on the carrier of an open action, a Minor Safety Violation (MSV) will be assessed. If the action is opened and a live/unfired round is ejected, a Stage DQ (SDQ) will be assessed for a long gun with a "live round under a cocked hammer having left the shooter's hands".

(There is no opportunity to correct this condition before firing the next firearm, as the penalty takes effect upon leaving the shooter's hands).

o If the long gun is the last firearm used, it must be cleared prior to it leaving the shooters hand(s) at the unloading area.

o This does not apply to firearms shot out of sequence, made safe, and then restaged.
